

Project Demo Planning

Date	29/09/2026
Team ID	SWTID-2026-1297
Project Name	AI FAQ Assistant API
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the AI FAQ Assistant API and explain the need for centralized FAQ and customer-support management.	2	SRIPRIYA P
2	Introduction & Problem Statement	Explain the REST API architecture, authentication, FAQ management, MongoDB storage, and Gemini AI integration.	3	SRIPRIYA P
3	Live Feature Demonstration	Demonstrate user registration/login, FAQ CRUD operations, FAQ search, and AI-powered FAQ generation using Gemini.	5	SRIPRIYA P / Harini Karthiga G / Monisha T
4	API Testing & Validation	Show Postman or Thunder Client testing for authentication, protected routes, FAQ operations, search, and AI generation.	3	SRIPRIYA P / Harini Karthiga G / Monisha T
5	Testing & Key Results	Explain manual API testing and the successful verification of the main backend functions.	2	Daisy rani V
6	Q&A Session	Answer questions about the project architecture, technologies, API endpoints, and future enhancements.	2	All Team Members

Demo Flow Summary:

Step	Activity Notes	
	.	Introduce the AI FAQ Assistant API and explain the need for centralized FAQ and customer-support management.

1	Introduction & Problem Statement	Explain the REST API architecture using Node.js and Express.js, MongoDB for data storage, JWT authentication, and Google Gemini AI for FAQ generation.
3	Live Feature Demonstration	Demonstrate user registration and login, FAQ creation and retrieval, FAQ search, and AI-powered FAQ generation using Gemini AI.
4	Q&A Session	Answer questions about the API features, authentication, FAQ management, AI-powered FAQ generation, and testing.
2	Solution Overview	Explain the REST API architecture using Node.js and Express.js, MongoDB for data storage, JWT authentication, and Google Gemini AI for FAQ generation.
