### Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

| S.No | Communication Type     | Frequency | Channel / Tool                      | Participants                          | Purpose                             |
|------|------------------------|-----------|-------------------------------------|---------------------------------------|-------------------------------------|
| 1    | Team Standup           | Daily     | what's app Group & Google Meet      | Sri Priya ,Harini, Monisha,DaisyRani  | Daily tasks update & doubts clear   |
| 2    | Progress Update        | Weekly    | Google sheets & Email               | Sri Priya & Mentor                    | Project process tack and report it  |
| 3    | Issue / Bug Discussion | As Needed | GitHub Issues & What's app call     | Developer Team                        | API bugs & its help us to quick fix |
| 4    | Stakeholder Review     | Bi-Weekly | Google Meet & skill wallet portal   | Mentor & full team                    | Feedback and guidance               |
| 5    | Final Demo Rehearsal   | Once      | offline meeting / Presentation Mode | Full team ( Daisy Rani- ppt Incharge) | Final documentation practice        |
| 6    | Documentation          | Weekly    | Google docs & canva                 | All team members                      | Project report & PPT                |

### Communication Challenges & Resolutions:

| S.No | Challenge Faced                                                                                                  | Resolution / Action Taken                                                                                                              |
|------|------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Difficulty in scheduling meetings due to conflicting college class timings and availability of all team members. | Fixed a common daily standup meeting at 8:00 PM for 30 minutes to ensure all members could attend and provide updates.                 |
| 2    | Technical difficulties and doubts faced during API integration and development phase.                            | Conducted immediate doubt-clearing sessions with the mentor via Google Meet and referred to official documentation and tutorials.      |
| 3    | Confusion in task allocation and miscommunication within the team                                                | Created a clear task distribution list on WhatsApp and used Google Sheets to assign responsibilities and track progress transparently. |
